

DERRICK STRAND ENTERPRISES

Results Based Consulting & Training

Who We Are

We are a Richmond, VA based management consulting & training firm focused on results based solutions for our clients. We don't just make recommendations, we help you execute them.

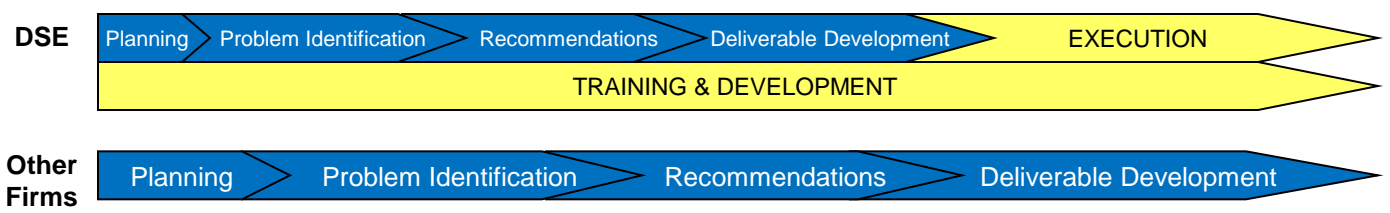

Our Philosophy On Management Consulting & Training

We consider ourselves the "anti-consultant" in many ways because our mission is to help you eliminate the need for consultants. It is our philosophy that companies have most of the answers already inside of their business and inside the minds of their people.

We want to help you design systems and processes that unleash the potential of your people so you can identify and solve problems from within thereby eliminating the need for outside consultants. What a novel concept!

How We Are Different

There are lots of management consulting firms to consider. We are different because we want to maximize the impact of your consulting spend. Many firms spend all of your money on interviews and fancy deliverables. Your money is gone and all you have is a plan. Our approach moves more efficiently to execution so recommendations are actually getting implemented. In addition, your people are getting trained on the tools and techniques so they can do it moving forward.

What We Do

Serving clients in the following areas:

- Leadership Development
- Organization Design
- People
- Process Management
- Cost Management
- Information Management
